

## **OFFICE ERGONOMIC ASSESSMENTS**

Have you conducted an Ergonomic Assessment of the office areas in your work place to determine whether your workstations are set up correctly and any hazards are being effectively controlled?

ERGOSH consultants are able to inspect your work place office areas and identify areas where improvements can be made. The consultant will make personalised adjustments with employees at their workstations where possible. Where on-site adjustments cannot be made then recommendations to reduce the risk of musculoskeletal disorders will be provided.

To arrange an Office Ergonomic Assessment contact ERGOSH Safety Management Services on:

Phone: (03) 9427 7122.  
Facsimile: (03) 9427 0311
